

We shall continue our thoughts here. Why "we"? ~~OK~~, I'm just feelin' like it rn. Power... the one that is from Chainsaw-Man. I just looked at her drawing on my wall and it reminds me of her. I'm trying to let go, but smell thinks like this always remind me of her. Why? It irritates me. I fucking hate her. For what she have done to me. She used me. Like a replacement. All the stuff... We's anything from that real, genuine emotions? I doubt it.

What I just wrote here is the same thing I'm thinking over and over and over again. Why can't I stop? Well, I do some small baby steps all this time and sometimes I make a huge leap. Like, finally deleting all the chat msgs with her.

I'm going to go do the readings from add. English lit. Hopefully, I'll write here again soon.

I'm back. Yehoo. The sore throat I'm having reminds me of sore throats after kissing w/ her. Yes, I know, I am trying to forget everything that happened.

But I couldn't ever thought that my first kiss would be bad ~~not good~~ in this way. In a way of missing that. But it is what it is. Can't change the fact that she's a lying bitch.

That is all I'm saying. Only truth. So, about that English lit. I did 2/3 readings cz I can't take all of 'em on. My head fuckin' hurts right. I'm out, for now. I shall return when I have smth new to write about.

Well, I have finally finished that English hw.

My brain is over heated rn.

My damn nose. I can't freaking breathe.

Time to go and rinse or gargle or whatever my throat. Then, I'll ~~then~~ drink some tea and write here more.

That dude from 'Oh, I get it ~~now~~ now' gif kinda looks like Drake (not the Black guy ofc). I can't stop thinking about that.

But I will pretty fast. Why doesn't it work like that with my memories of that person? Well, I want to break it down now. So let's go.

First, thing is that my brain still categorises those memories as important ones. Second - it hasn't still removed an emotional connection to those mems. And the last one is prob. That it thinks of those

memories & of such ~~was~~ necessary.
But those thoughts ~~are~~ and things
are not. I'm just coping. And trying to
justify the reason why I think of that
in the first place. So, I should stop writing
about this topic and switch to another one.

Let's talk about ... Well ... I dunno ...
Lemme think ...

Well, I certainly wasn't thinking about
what to write here. I was doing other stuff,
like understanding hair modeling and
watching random YouTube videos. But now
I have some thoughts to write down.

So ... The structure of the eye. Not actually
structure, more about how we, humans,
perceive colors. I watched a video about
colors a few hours ago, and I still am confused
about the color pink. Like I understand that

September 2024

we see it bcz of RGB channels in our eyes, but pink is not an actual color, it's not a wavelength of light.
Whatever...

A song, the one that won kids Eurovision. Didn't the name, but it is stuck in my brain. Not the whole song, just the part where they sing "I don't it". And this is bcz I don't think that person actually loved me or felt smth like that towards ~~me~~ me. Any again, whatever...

About the September 2024 Progress Trackers, I would be measuring my and tracking my weight, cz I need to gain some kilos. I'm really light when talking about weight.

Maybe I'll start reading a book called "How to deal with anxiety" and start living". Don't like readings, but I shall give it a try.

Scene Ideas for "Lethal Bodies"

Vibrator vs Attakai in a train.

The train is first in some maintenance tunnel and later it rides out into the open. When it stops, Attakai runs out of it and meets Chameleone ^{in Attakai's disguise}. Vibrator catches up to 'em and almost kills Chame, cuz thinks that is real Att. but he notices that this Att. doesn't have ~~the~~ some weird that Att. got during fight inside the train, ~~so he is~~. And that transitions into another scene, where Mr. M vs. Vibrator and Att. chases Chame.

My weight is dropping... WTH? Last time I checked it was 53 or 52 kg. But now it is 51.25. It definitely was 53 kg. first. I am stressing too much and now I lost 2 kg, which is not good. It is bad

September 2024

It's bed CZ I need to pack weight not drop it.

Right, I'm go and do smth with that.

NOI 4 Olukemi's mod. Or at least I'll try.

After that I will go sleep up. So, go!
